

Custom Instructions for ChatGPT

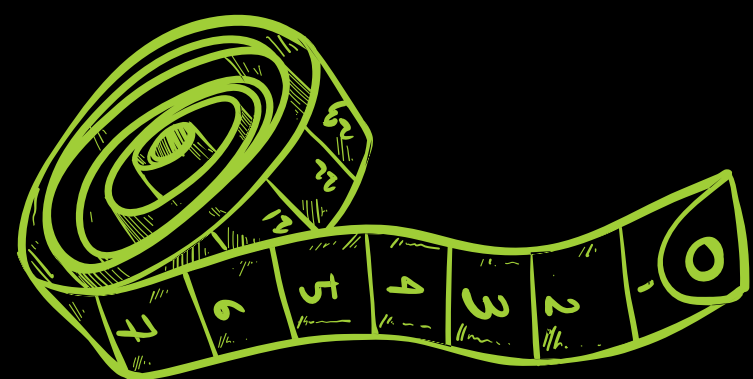

How to Train Your ChatGPT

Personalize your communication
with ChatGPT

TAILOR CHATGPT...

- Custom instructions **incorporate your preferences or specifications**. The model will remember them and incorporate them when it responds.
- *ie: a teacher crafting a lesson plan no longer has to repeat that they're teaching 3rd grade science*

FYI: Since May 13, 2024 – Free users now have access to Custom Instructions.

CUSTOMIZED RESPONSES....

- Better control over how ChatGPT responds.
- Retains your preferences.
- Applies them to all future AI interactions.

WHAT ARE CUSTOM INSTRUCTIONS FOR?

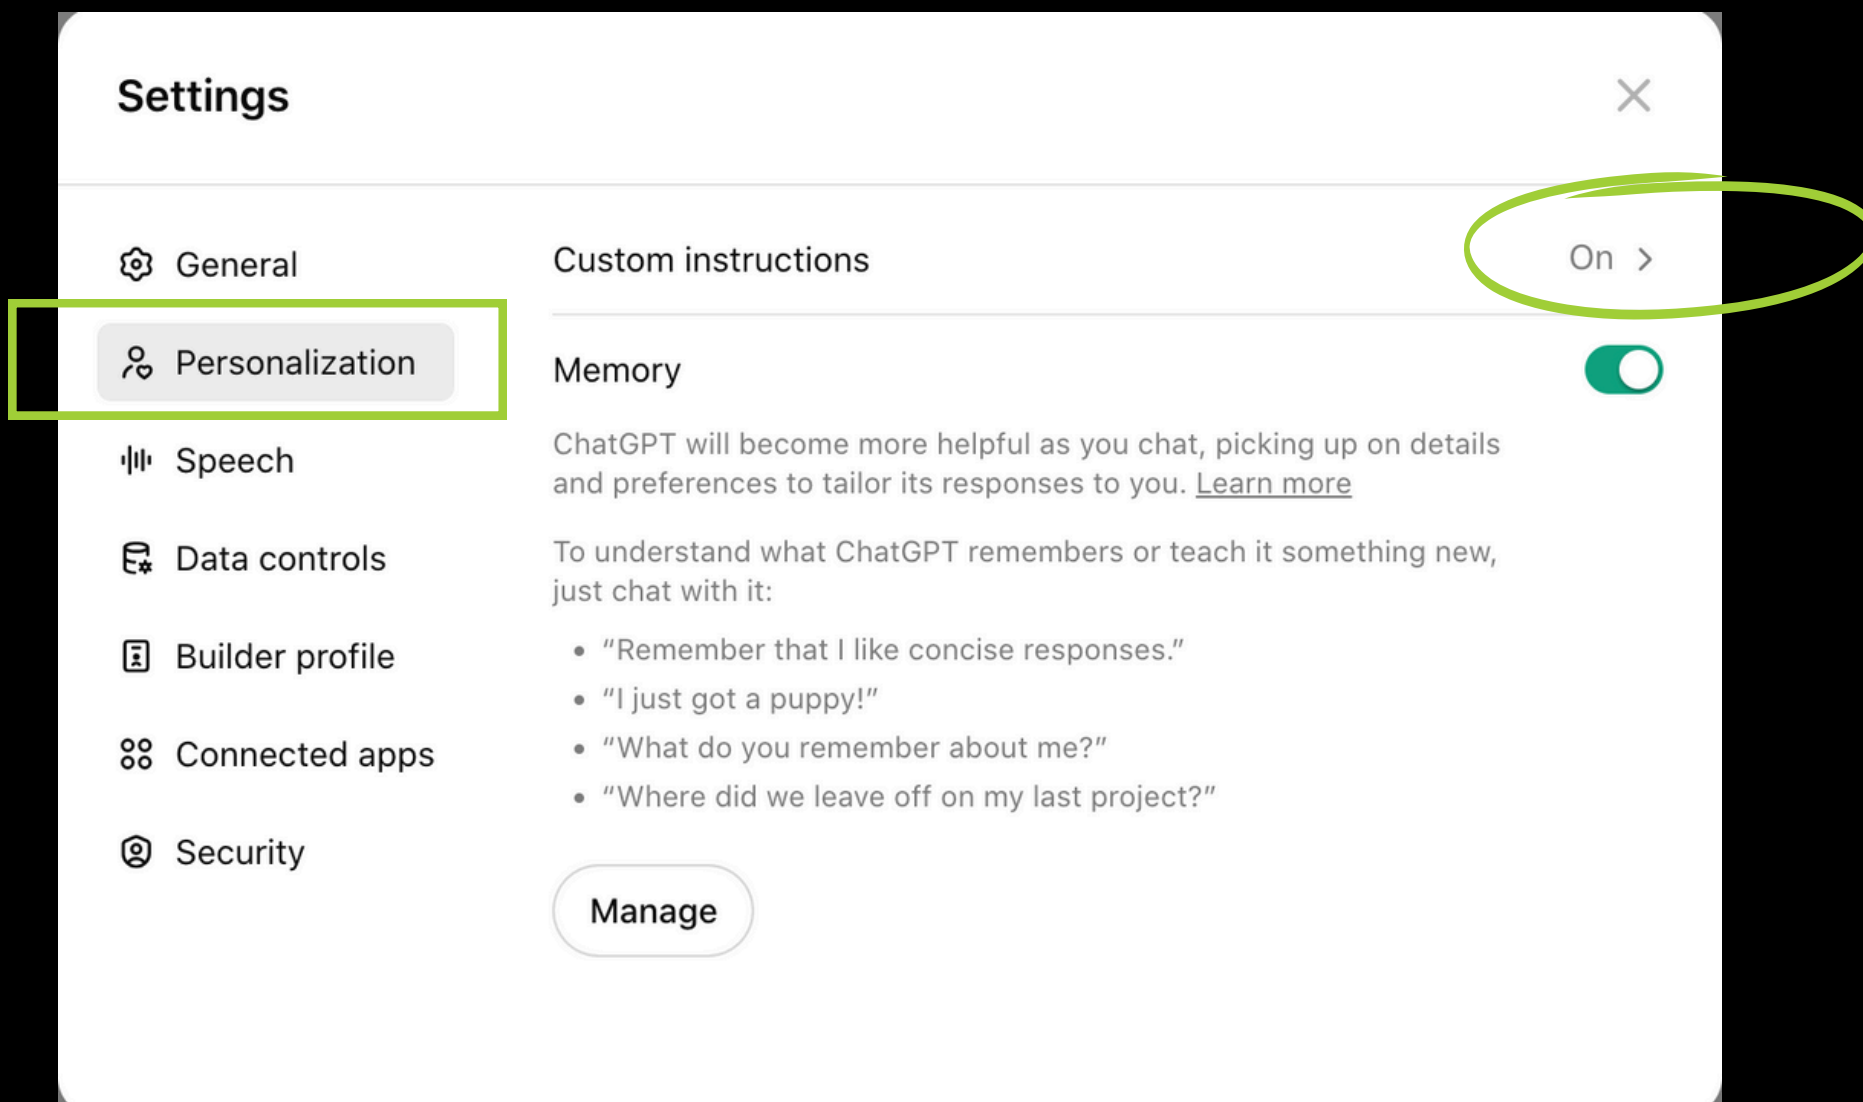

Custom Instructions serve multiple purposes:

- **Occupational Relevance:** Tailor responses to your line of work.
- **Tone and Style:** Choose how formal or casual you want the AI's responses to be.
- **Length:** Decide how detailed or concise you want the answers.

CUSTOM INSTRUCTIONS TIPS & TRICKS....

- **Be Specific:** The more specific you are, the better the AI can assist you.
- **Assign A Role:** You can set roles like "Programmer," "Writer," or "Analyst" to get specialized assistance.
- **Test and Tweak:** Don't hesitate to refine your instructions for better results.
- **Check Character Limit:** Keep in mind the 1,500-character limit when entering your instructions.

LAUNCH CUSTOM INSTRUCTIONS...

- **Enable** Custom Instructions via the Personalization tab under Settings.

SET CUSTOM INSTRUCTIONS...

- You'll see two text boxes where you can answer the following questions.
- Click save.
